

A global share in innovative technology.

Clear. Reliable. Effective.

Heated fluid

Clears frozen nozzles

Cleans windscreens

Constant fluid availability

Works in all weather conditions

Clears bugs & debris

Heats quickly & efficiently

Works standstill & move

Glares in your view caused by bugs & debris are severe safety risks. 

While during winter iced windscreens cause damage to your wipers and hide your view

U can't believe what u cannot see

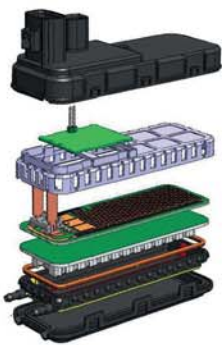

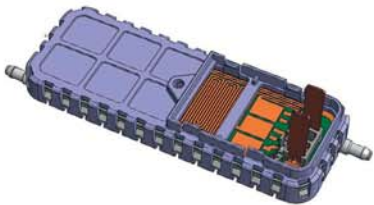

A global share in innovative technology.

Exalto Heated Spray System (HSS) is a patented heating system to ensure a safe and clear view under all circumstances. The most effective method of cleaning windscreens is by using heated fluid.

Exalto Heated Spray System is fast and efficient in removing insects and related grime from the windscreen. Exalto HSS also quickly de-ices the washing jets, the windscreen and it fast releases frozen wiper blades to prevent causing damage.

Exalto Heated Spray System is available integrated in the Exalto Rail Wiper assembly or as a refit kit for the aftermarket that can easily be installed to add value.

Dedicated to improving safety and conserving resources

Exalto Heated Spray System isn't simply about saving time. It's about saving lives and fuel. Faster, clearer vision for all drivers improves railway safety. Dramatically reduced idling time for screen clearing also delivers greater operating efficiency and fuel savings.

Grasp the advantages

Installing Exalto Heated Spray System has real tangible benefits for every driver, in every season. Snow, frost, insects, bird droppings, oil – Exalto Heated Spray System heats and delivers washer fluid to clear all. Assists in clearing frozen jets. Broadens spray coverage. Improves clarity. Improves wiper blade performance. Reduces engine idling

Enhanced safety and performance

At -18°C, Exalto Heated Spray System can clear the windscreen in minutes and during summer months can clear bugs, grime and debris in seconds. The reduction in glare means drivers can drive with maximum windscreen visibility in all conditions when they need it most.

It means greater operational efficiency for businesses. It saves money and potentially

Dignity. Respect. Accountability. Credibility.

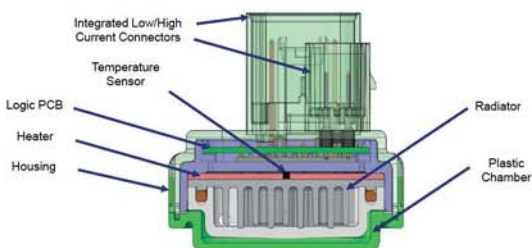

Corporately. Socially. We are highly responsible right across our worldwide supply chain.

We are committed to providing safe working conditions.

Workers are treated with dignity. With genuine respect.

We manufacture environmentally responsibly where possible too.

Seeing is believing
